TERRIBLE DISASTER AT SEA!—The Chicago papers of yesterday contained the following despatch, which failed to reach us:

CHARLESTON, Sept. 17.

The steamship Thomas Swan, from New York, has arrived, and reports that she spoke on the 12th, about 15 miles north of Cape Hatteras, the Norwegian barque Eloyse, which had on board 40 passengers of the steamship Central America. She states that the America foundered on the 12th, with 500 passengers on board, only 60 of whom were saved. Nothing mentioned concerning specie.

The steamer was reported to have on board $1,600,000 in specie, the loss of which will cause more disasters in financial circles. But this is nothing in comparison with the loss of *over four hundred* lives, thus swallowed up in the remorseless waves of the ocean. We trust that the report may yet prove false.

P. S. By additional dispatches it will be seen that the above report is but too true. Among the passengers saved are 25 females. The officers all perished except James Fraser, second officer.

FOLLOWING IN THE FOOTSTEPS.—We see that the *See-Bote*, one of the German Democratic papers in this city, copies the false report of the *News*, of the Temperance meeting the other evening. It was bad enough in the *News* to perpetrate the lie, but it is worse in the *See-Bote* to copy it, and deceive its readers. And the *See-Bote*, we believe, is the only *religious* newspaper in the city.

JEFFERSON AND DODGE COUNTIES.—The *Jeffersonian* notices the following decision of the Supreme Court, to-wit:

"State of Wisconsin, *ex. rel.* James C. Brayton *et. al.* vs. Orlando C. Merriman. Quo Warranto. Opinion by Justice COLE. Demurrer to return sustained with costs."

As being in effect a decision that the law dividing Dodge County, and adding certain towns of it to Jefferson, was unconstitutional, and void. If so, it is a matter of great importance. The last Watertown *Democrat* says nothing of the matter.

RACINE COLLEGE.—The fall session of this Institution began on Wednesday, the 16th inst., with encouraging prospects. Rev. S. S. SHAMAN has resigned the Professorship in Greek and Latin, and is succeeded by Rev. GEORGE COWELL, A. M., of Cambridge University, England, as acting Professor. The second College building is in progress, but will not be ready for use until another year.

IMPORTANT ARREST.—Half a dozen of the employees on the Chicago, Alton & St. Louis R. R. have been arrested for stealing from the cars and warehouses, and a large amount of missing merchandize recovered.

LARGE CLAIM FOR DAMAGES.—The owners of the steamer *Huron* have sued the city of Chicago for $25,000 damages, sustained by her running on a sunken vessel in the harbor.

RAILROAD ACCIDENT.—The westward passenger train on the Pittsburgh & Chicago R. R. on Wednesday afternoon, ran off the track. The fireman was killed, but none of the other persons on the train suffered any serious injury.

BANK CLOSED.—The "Bank of the Capitol," at Indianapolis, has closed.

The State Superintendent's Office.

The following paragraphs from the Madison *Journal* are richly merited, as the Report, an abstract of which we are preparing, fully shows:

"HOW NOT TO DO IT."—The present Democratic State Superintendent, Mr. Barry, seems to be the most consummate master of the great Circumlocution Office policy of How not to do it, on record. The Lord Decimus and the Hon. Tite Barnacle hide their diminished heads. They were mere tyros in their art compared to our A. Constantine.

In substantiation of his claim to this distinction, we point the reader to the portion of the Report of the Investigating Committee which we publish to-day. The Committee in speaking of his general management of the office, use this emphatic language: "It would seem as if every usual business place or method of orderly arrangement of convenience, or of utility, have been perseveringly rejected or ignored, and that chaos or confusion have become the settled rule of the department; and this description the Committee mean should be distinctly understood as applying to every business detail relating to it. Indeed, *from a careful examination, they know of nothing done, which could be neglected, delayed or postponed by any, or without any pretense whatever.*"

N. Y. Know-Nothing Nominations.

For Secretary of State—James O. Putnam, of Erie.

For Comptroller—Col. N. S. Benton, of Herkimer.

For State Treasurer—Lyman Odell, of Livingston.

For Attorney General—Henry J. Ross, of Essex.

For State Engineer and Surveyor—Roswell Graves, of Kings.

For Canal Commissioner—G. Denniston, of Steuben.

For State Prison Inspector—John M. Stevens, of Westchester.

For Judge of the Court of Appeals—Hiram Ketchum, of New York.

FINANCIAL.—Money continues most uncomfortably tight, and all departments of business are depressed. One or two failures were announced yesterday: Messrs. Higginbotham & White, dealers in dry goods (principally silks), Lake-st. We understand they were closed by an execution for $20,000. Messrs. Frost & Bradley, lumber merchants, Market street, were also forced to suspend temporarily by an execution of $29,000. The assets of the firm are probable four times the amount of their liabilities, but in the present state of the money market it was found impossible to stay the execution.—*Chicago Tribune.*

BUSINESS ON THE MILWAUKEE & HORICON R.R.—The travel on the railroad is increasing very fast. For the first few days they only averaged to carry ten to twenty passengers each trip, from this city, now they average from fifty to one hundred. Freights are also increasing as rapidly, the boats up the Wolf carrying 15 to 30 tons each trip.—*Berlin Courant.*

From the N. Y. Times of Wednesday.

New York Money Market.

The changes since yesterday, though not as decided in the rates for money as could be desired, are all for the better. The Banks which hold their discount sessions this morning did a liberal part by their dealers, and we are glad to hear that while the offerings continue excessive, they are not of the same urgent nature that pressed for discount last week. The merchants who are not fully accommodated at Bank, or who held bills having over 60 or 90 days to run, find terms at the discount brokers nearly as dear as last week. Indeed, some paper was doing today at 18 per cent. The difficulty in passing produce exchange on England is somewhat ameliorated, and a fair amount of bills taken by the banking houses to-day at 7 to 7¼ per cent. Bills of their own drawing are held at 8 to 8½ per cent. The rates, for ready money, were quite unsettled through the day, but close slightly better. On France the range is 5.25 to 5 18¾.

From Washington.

[Special Dispatch to the N. Y. Tribune.]

WASHINGTON, Sept 15.

The Commissioners of the Land and Patent Offices had a conference with the Secretary of the Interior to-day, at which it was decided to dismiss all clerks suspected of being tainted with Know-Nothingism or Republicanism. The heads of those unfortunates are to fall on the 30th inst. Three clerks were dismissed from the Treasury Department on Saturday; fifteen more are to die the death on the 30th inst. Four heads of bureaus perish on the same day. It is understood that Colonel Forsyth is actively engaged in negotiation with Messrs. Le Sere and Benjamin with reference to the Tehauntepec matter. The new contract, abrogating the Garay and 55oo grants, is said to be in point of fact a contingent sale of the Isthmus route to the United States Government, although the nominal purchaser is the Le Sere Company.

From the London Times, Sept. 8.

The Atlantic Cable not available for the Indian Telegraph.

It is reported that the Atlantic Cable is not likely to prove available for either of the projected Indian lines of telegraph. It appears that in its present coiled state it generates or absorbs a great amount of heat, and a fear is entertained of its being ruined by the temperature to which it would be subjected in twice crossing the tropics. It has been found that extreme heat in the parts under pressure, forces the copper wire to the sides of the gutta percha and destroys insulation.

☞ The Indian Sha-go-ba, who was held by Judge Nelson to answer the charge of homicide in causing the death of young Donnelly, a member of the Cavalry Company, was on Wednesday of last week conveyed by Deputy Sheriff Bracket to Taylor's Falls, in Chisago county, and delivered up to the Sheriff of that county, who, we learn, refused to receive him Mr. Bracket, who had done his duty in the premises, left him at the Sheriff's house and returned to this city. The Indian, taking a fancy to follow up his old pursuits of hunting, and not finding any serious objections, deliberately concluded to take his leave. The citizens of the county, we understand, are not interested sufficiently to venture among the Chippewas to capture him, and it is generally supposed that he will never be brought to trial.—*St. Paul Times.*

☞ The Corn Crop is said to be the heaviest in this region of country ever known. The splendid weather about these days has already ripened it beyond the danger of frosts. The abundant harvests fully compensate our farmers for their labor, notwithstanding the decrease in the price of their products. If they would now determine to market off their crops at current prices, and pay their debts, there would be little cause for the cry of hard times.—*Portage Badger State.*

FATAL ACCIDENT AT STURGEON BAY.—Mr. E. S. YEATES, Justice of the Peace at Sturgeon Bay, writes us that a German named Michael Eissler, in the employ of Mr. Bradley, of that place, was killed on the morning of the 8th, by the fall of a tree which he was cutting. He is supposed to have relatives in the vicinity of Barton, Washington Co., in this State, and it is requested that the Milwaukee German papers, and the Washington Co. paper, make mention of the occurrence.—*Green Bay Advocate.*

COLLISION.—The schooner reported by us yesterday as having had her bowsprit, jib-boom and topsail yard carried away by a collision, proves to be the Lucy J. Latham, on her way to Oswego with a cargo of grain. She collided on Sunday night, off Point aux Barques, with the schooner St. James, bound for Marquette. The St. James lost her bowsprit, jib-boom, and a portion of her stanchions and head rail. She put into Port Huron for temporary repairs. The Lucy J. Latham reached this port last night, where she will be repaired.—*Detroit Tribune.*

The Excursion to Brodhead.

About one hundred of our citizens attended the celebration of the opening of the Southern division of the Milwaukee & Mississippi R. R. to Brodhead, on Thursday last. The excursion train which left this city at half-past seven o'clock on Thursday morning, was joined by large numbers of excursionists at Waukesha, Palmyra and Janesville—about six hundred from the latter.—All were in excellent spirits, and the ride through the beautiful, and in many places highly cultivated country on the line of the road, was much enjoyed. Owing to the illness of the senior Editor of this paper, it was, we regret to say, impossible for us to attend, but we learn from some of those who participated in the celebration, that notwithstanding the extremely unfavorable state of the weather, the festivities passed off in a manner highly satisfactory both to the visitors and good citizens of Brodhead.

A bounteous dinner was laid out in the station house, and as railroad traveling always improves the appetite, the good things which were provided for the occasion, were not by any means neglected. The celebration closed with a dance in the evening, in the upper story of the station house, which was handsomely decorated with evergreens. The greater part of the excursionists returned in the afternoon train, although many remained to "trip the fantastic toe," at the ball in the evening.

All whom we have seen of those who attended return with a good opinion of the thriving town of Brodhead, and its polite and enterprising citizens.

CIRCUIT COURT.—The September term of this Court commences on Monday. There is a pretty full calendar, and the term as usual will be a busy one.

POLICE COURT, Sept. 18.

BEFORE OLINTON WALWORTH, POLICE JUSTICE.

John McAllister, and Dunham Fay were fined; the former $10 and the latter $5 for having a pugilistic encounter. McAllister resisted the officer, but the other did not, hence the difference in their fines.

Patrick McCarty, and John Cohill, disorderly, fined $5 each.

For the Sentinel.

The Falsehood of the News.

DEAR SENTINEL:—Judging by the mildness of your reply to the article which appeared in the *News*, headed the "Temperance meeting last night," one would think you had become so accustomed to seeing such falsehoods in print that they had ceased to astonish you. With ourselves it was quite different; we have been in the habit of reading the *News* and supposed that it was *honestly* laboring to promote the interests of the Democratic party. Whenever it has published thing which surprised us, and you have fairly denied them in the *Sentinel*, we have thought it a necessary part of an opposition paper to do so, but never dreamed that a journal published in a Christian community and read by a people who support common schools, could be guilty of *printing* a deliberate and cunningly devised falsehood. It is hard for those who have nothing to do with politics, to believe such a thing possible; and we have always been accustomed to look upon these mutual accusations of untruth as mere political license—bad, and wicked enough even *as such*. But from this time forth we must believe that one public sheet, at least, does not scruple to manufacture falsehoods and circulate them for political capital. We have still a lingering hope that the article above referred to was wholly the fault of the reporter, and that when the editor learns the truth of the matter he will correct it; if not we must regard the *News* in a *new* light, and refuse it a place on our table, as not suitable for a family to read. For we were present at the Temperance meeting, referred to, and know that the names Randall and Cross were not spoken of, not a speech was made, nor a resolution passed. On the contrary, two persons in the course of conversation refused to have anything to do with a movement that could in any way get mixed up with politics. It was simply a meeting for the purpose of seeing if there was not some means of bringing the *anti dissipation* element of the community to bear upon what there quarters of our citizens must regard as the growing *evil* of *dissipation*. This was all; you may imagine with what feelings of astonishment and regret we read the false report of the *News*. We say nothing of the man who can *print* nor the cause that can be aided by such "a wicked lie."

ONE WHO WAS PRESENT AT THE MEETING.

AIR WARMING FURNACE.—Messrs. RICHARDSON & GRAY on Wisconsin street, under Young's Hall, have just put in operation in the new Station House, one of Boynton's self clearing furnaces. It was tried yesterday for the first time, and with a small amount of fuel it soon warmed the whole building, including the large Police Court, in the second story, and the office of Chief of Police in the front part of the building. The furnace is placed in brick work in the basement of the building, and the cold air is brought into a heated apartment from the outside through a large wooden conductor, when it expands on becoming hot, and is dispelled with considerable force through the tin pipes which conduct it to the different parts of the building. These furnaces are now very generally used in public buildings, and even in private dwellings where much heat is required. They are far superior to stoves, making less dirt and trouble, and besides being more economical, as a greater amount of heat can be obtained from one of them than half a dozen stoves at least, with less than half the fuel.

Messrs. Richardson & Gray are agents for these furnaces for the State.

"FRESH LEAVES," by FANNY FERN: MASON, BROTHERS, publishers, N. Y.

We have from E. TERRY & Co., a copy of this new compilation of Fanny Fern's "Leaves," dedicated to her daughter, GRACE Eldridge.

We are no very enthusiastic admirer of the author's works, generally, though he has written many things for which the world is the better. She is always sharp and piquant, like Worcestshire sauce—in fact she is "saucy," very, sometimes. The sayings of a clever woman are always interesting, and find ready listeners; so the Fern Leaves are popular, and, on the average, do about as much good as harm.

The book is beautifully got up.

A VOICE FROM CHINA.—We are requested to state that the Rev. W. DEAN, D. D., will preach in the First Baptist church, corner of Milwaukee and Wisconsin streets, to-morrow at 10½ A. M., and 7½ P. M. Dr. DEAN has spent twenty years of his life amongst the Chinese, and is one of the most distinguished missionaries that ever left our country for a foreign field. Go and hear him.—The repairs being made on the entrance of the church, will not interfere with the assembling of the congregation.

DRIZZLY.—The sun has not shown himself for the past two days, during which time we have enjoyed (?) a supremely disagreeable, drizzly rain. "Everybody and his wife" have sore throats, and cough medicines are in great demand. Overcoats and coal fires have at once become fashionable, but crinoline is decidedly on an upward tendency.

SALE OF LOTS AT MCGREGOR, IOWA.—See the advertisement of a coming sale of valuable lots at McGregor, Iowa, opposite Prairie du Chien. McGregor is already one of the most thriving, and is bound to be one of the largest towns on the Mississippi. Its trade already is enormous, as the figures which we have frequently given testify.

PRISONERS IN JAIL.—The *News'* man has been visiting our abominable hog-pen jail. He says:

There are fifty-one prisoners confined in our jail, eleven of whom are women. The jail was built, in the first place, to hold not exceeding 24 persons, but inhumanity crowds 51 human beings into it in miserable and disgraceful jail.

☞ For a few days past the weather has been cold, wet, and altogether disagreeable, rendering *overcoats* very desirable and in good demand. Messrs. Swaffield and Russell on Market Square, have on hand an assortment, which for style and quality cannot fail to please.

THE ST. CHARLES THEATRE.—This new theatre opens this evening at Market Hall, with, it is said, a talented troupe of actors. Mr. Wm. F. Johnson, an old favorite with the Milwaukee public, is the stage manager.

ESCAPED PRISONER.—The account of an escaped prisoner, at the foot of the first column of our paper yesterday, should have been credited to the Janesville *Gazette*. No prisoners have escaped from our jail, or are likely to.

A GOOD BINDER, who understands *Forwarding* and *Finishing*, can obtain steady employment at good wages, by applying at the *Sentinel* Bindery soon.

Milwaukee, August 29, '57.

TAPE HEAD.—D. TILTON has returned to the Marshall House, Chicago, where may be obtained Old Dr. James' wonderful and celebrated extract of Cherokee Indian.—His son-in-law, Dr. THOMAS TILTON, will supply you with either, personally or by Express. It is a sure and speedy cure of the worst cases of consumption, bronchitis, asthma, nervous debility, coughs, colds and sore throats.—We know this to be a fact. Try it and live

P. S.—By addressing Dr. TILTON a note through the Chicago Post Office, inclosing four stamps, (12 cents), a recipe will be sent in return, free of charge, to any part of the Union. DR. TILTON,

LATEST NEWS!

BY MAGNETIC TELEGRAPH.

Concerning the Central America.

CHARLESTON, Sept. 18—3 P. M.

Last night's dispatch embraced all the facts known concerning the loss of the Central America.

The Eloyee was making for Norfolk.

The Central America Foundered.

NORFOLK, Sept. 18—3 P. M.

Copy of a dispatch to M. O. Roberts:

The Central America foundered on Saturday. 50 passengers were rescued by the Eloyee, including 25 females, and have arrived in Hampton Roads. The officers were all lost except James Frazer the second officer. Chief Engineer Ashby took a boat and deserted the ship. Two millions in specie is lost. I start for N. Y. with the surviving passengers at 10 A. M. Signed,

J. McGOWAN,
Com. Steamship Empire City.

SAVANNAH, Sept. 18.—8 P. M.

The bark Saxony arrived here this morning with 5 of the passengers of the Central America. She reports the total loss of the vessel, treasure and mails, and about 500 of the passengers and crew. She reports that 40 women and children were saved by the brig Marine of Boston. The sea was very heavy. 48 other passengers saved by the Saxony are R. H. Childs, of N. Y., Jabez Howes, of San Francisco, Geo. Lock, of Maine and Adolf Frederick.

PORTLAND, Sept. 17.—8 P. M.

2½ towns give Morrill for Gov. 45,644 votes and Smith 34,616, making the republican majority 11,028; the same towns last year gave Hamlin 59,174 and Wells and Patten 52,807 the republican majority being 16,347 in the State. The republican majority will be about 12,000.

NEW YORK, Sept. 18—8 P. M.

Of the gold by the Central America it is estimated that about $1,000,000 is insured in London; $600,000 here. The gold coming to Duncan, Sherman & Co., Rost. Hallett & Co., Hoag & Co., Wells, Fargo & Co., Howland & Aspinwall, is insured abroad. The Messrs. Drexel shipments, which is the only other large consignment insured here. The Ins. Co. have resolved to pay the loss at once, upon proof of loss, without taking advantage of the 30 days' delay allowed them. The foreign insurance will be paid at the same time, according to a clause in the policies. The steamer was valued at $300,000, and was not insured; the company does not insure any of its ships. The freight list and other papers of the ship were all on board, and duplicates cannot be obtained from San Francisco under five or six weeks.

The aggregate loss will be near $2,25,000 in treasures, and about two-thirds of which is insured in London. The loss to our market consists mostly in the delay of settlement, and this is already provided against to a great extent. Messrs. Satler & Church who have about $25,000 by express on the steamer, are insured in the following offices: Atlantic, one-fourth; Sun, one-fourth; Great Western, one fourth; Pacific, one-eighth; Union and Montreal, one-eighth. A special shipment of $50,000 is covered by the general policy of the Messrs. Aspinwall in London. Messrs. Duncan, Sherman & Co. will draw bills immediately on the London Insurance Co. for the amount of shipment coming to them.

Additional to the list of saved by the *Eloyse*.—1. Colwell, Benj. Seyer, John George, Edward Moore, B. Lee, Jas. Jackson and Chas. Rivers. On board the barque *Saxony*, bound to Savannah, Messrs. Childs, Howe, Look and Robert Ridley. On board the brig *Marine*—Mrs. Bradger, Mrs. Eaton, Mrs. Brown, Mrs. Harvey, Mrs. Birch and Mrs. Conner; of the crew—James M. Frazer, 2nd officer; Henry Reelor, 2nd Ass't Engineer; John Jones, Fireman; J. McCarthy, Fireman; A. R. Holcomb, Tim. McGaugh.

The Central America was lost 200 miles off Cape Hatteras.

The steamer Empire City sailed from Norfolk on Friday, for New York, and took part of the passengers.

Positively all the ladies and children who were saved are on board the brig Marine—?.

NEW YORK, Sept. 18.—9 P. M.

The Express gives the names of the following passengers in the Central America: John White, Brooklyn, Wm. Flynn, N. Y., Thos. P. Coleman, Nantucket, Chas. J. Leonard, N. Y., Gabriel B. Brush, N. Y. Marcellus Farmer, Syracuse, David M. Tading, Williamsburgh, Isaac M. Tompkins, Brooklyn, James W. Tompkins, near Rochelle, N. Y., John Barmose, San Francisco, C. J. Richardson, Brattleboro', Vt., O. W. Richardson, Brooklyn, and a son of Mr. Raymond, ticket agent of the route in this city.

WASHINGTON, Sept. 18—9 P. M.

The Administration is determined to enforce the Neutrality laws, and to-day took the initiatory steps for that purpose. In addition to information having been received of fitting out three several expeditions, viz: at New York, New Orleans and Mobile for the re-invasion of Nicaragua, under the leadership of Gen. Walker, intelligence from an official quarter, has come to hand of another expedition having its centre in, if not altogether confined to Texas, for the invasion of Mexico, and it is supposed for the seizure of the State of Tamaulas. Gen. Sam. Houston is, by the reports received, implicated as its leader. To-day, the form of instructions was prepared by Executive authority, and copies of which will be dispatched to-morrow, to the various U. S. Marshals and District Atty's on the seaboard, as well as officers of the army and navy, to use all lawful means at their command to prevent such expeditions leaving the U. S. for the invasion of any country with which we are at peace. In other words, enjoining them to distinctly enforce the Neutrality laws.—At present no Presidential proclamation will be issued.

Jacob Barnes has been appointed Register of the Land Office at Sheboygan, Wis., vice Taylor resigned.

A. K. Stone, Receiver at Osage Land Office, in Iowa, has resigned.

Gen. Henningsen arrived here to-day from the South, en route to New York.

NEW YORK, Sept. 18—9 P. M.

We have announcements of the failure of the Ellisville Glass Co., in Oswego Co., the Miami Valley Bank, of Dayton O., Moderation, of this city, and of Aaron S. Lippincott & Co's extensive wool house in Philadelphia. The liabilities of the latter are $80,000.

NEW YORK, Sept. 15—10 P. M.

We have waited until this time in the hope of getting the details of the loss of Central America. The line is reported interrupted south of Richmond, and the chances are slender of getting anything to-night.

BALTIMORE, Sept. 17—9 P. M.

The boiler of the Telegraph Flour Mills exploded this morning. The boiler house and 2 small buildings were demolished. Two persons killed, three fatally injured and fourteen wounded.

St. Louis, Sept. 17.—9 P. M.

The Board of Canvassers which met at Omaha City, 5th inst., to decide on election of delegates to Congress, after denying authority to investigate illegal returns, or correct frauds in certain Mormon precincts, gave Ferguson majority over Chapman by 47 votes. Chapman will contest seat.

Yesterday afternoon a fire occurred in Eleventh street near Market, which, before the flames were subdued, swept the buildings in the entire block, including a carpenter shop, Hugh Reed's sash manufactory, Cain Block Company, wagon and blacksmith shops of Jas. Vorden; several other buildings and tenants, and extensive lumber yards of Wm. Morrison, and Wright & Co., containing between two and three millions feet of lumber were also destroyed. Morrison's loss $60,000—insured $5,000. Wright & Co.'s loss $40,000—insured $18,000. Total loss estimated at $130,000—insurance not ascertained; doubtless will prove small.

COMMERCIAL.

Milwaukee Market.

OFFICE OF THE DAILY SENTINEL,
Milwaukee, Sept. 19, 1857.

Received by Mil. & M. R. R.—70 bbls flour, 6,975 bus wheat, 300 do barley, 100 do oats, 900 lbs hides, 1 car stone.

Received by Mil. & H. H. R.—1,623 bus wheat, 938 bbls flour, 66 sacks do, 80 bus grass seed, 2,140 lbs hides.

Wheat—market quite active yesterday, considering the unfavorable weather, and prices after good opening further Milwaukee club, 128 for very common red, 130 for inferior Milwaukee club, 128 for very common red, 130 for inferior Chicago spring, 132 for fair to good do, 135 for red Ind. and Ind. 135 to 140 for red southern, and 137@139 for white do.

Rye—steady, 86@90 bu sold at 82.

Barley—firmer, sales 1,500, store 91.

Corn—a shade better and quiet; sales 12,000 bus mixed western at 80@81; supply very small.

Oats—dull at 40@42; sales 1,000 bus at 41½.

Butter—in moderate demand at 13@19 for Ohio, 17a 22 for State.

Cheese—steady at 8¾@9.

Seeds—depressed; Pacific Mail Co 65½; Canton Co 16; Reading 45¾; Panama 58; N Y C 70; G & M 72¾; Erie 18; Erie 18; C & V 41¾; Hudson River 18. Money still stringent, though the banks are discounting steadily. It is not supposed here that the loss of specie on board the Central America will have any very sensible effect on our financial affairs. The Pacific Mail Co shares fell 9 per cent, on which a very small portion has been realized. The stock was quite heavy and prices unsettled.

MILWAUKEE:

SATURDAY MORNING, SEPT. 19.

REPUBLICAN NOMINATIONS.

FOR GOVERNOR,
ALEXANDER W. RANDALL,
Of Milwaukee.

FOR LIEUT. GOVERNOR,
CARL SCHURZ, of Jefferson.

FOR SECRETARY OF STATE,
JOHN L. V. THOMAS, of Rock.

FOR STATE TREASURER,
SAMUEL D. HASTINGS, of La Crosse.

FOR ATTORNEY GENERAL,
MORTIMER M. JACKSON, of Iowa.

FOR BANK COMPTROLLER,
JOHN P. McGREGOR, of Columbia.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTION,
JOHN G. McMYNN, of Racine.

FOR STATE PRISON COMMISSIONER,
EDWARD M. McGRAW, of Sheboygan.

The State Superintendent.

For the important office of Superintendent of Public Instruction, the Republicans have presented the name of J. G. McMynn, of Racine, and the Democrats that of Lyman C. Draper, of Madison.

We mentioned, long before the Convention, our preference for Mr. McMynn for the office, above any other man in the State within the limits of our acquaintance; not especially because we knew of his admirable qualities as a *teacher*, which are fully testified to by all who know anything, and are disposed to speak the truth, of the celebrated Racine School, but because we knew him to be a man, beyond his experience in teaching, who possessed the precise qualities in our view necessary for the office, *to wit*: administrative ability, system, industry, a capacity for organization, honesty, fearlessness. We were gratified at his nomination, and expect to see, under his administration of the office, a vast and immediate improvement in the method of performing its multifarious duties. The opposition have commenced a disgraceful personal warfare upon Mr. McMynn, which cannot harm him.

We shall not follow their bad example in alluding to Mr. Draper. He is, as a man, every way as estimable as Mr. McMynn, though no more so. He is eminently fitted for the work in which he has been engaged—that of Secretary and Librarian of the State Historical Society.—He is a born lover of old books and antiquities. He is admirably adapted for the quiet work of a still library, wherein old authors are eloquent without sound. He has done the State good service in covering the country with circulars, asking donations to the collection of the Society. A newspaper paragraph no sooner meets his eye, announcing that John Smith, in the Aroostook country, or in Texas, is the possessor of a Washington letter or a tooth of Baron Steuben, than the next mail carries to John Smith the announcement that he is chosen a corresponding member of our Historical Society, and invited to make a donation. The collection thus gathered is already large and valuable, and the State has been liberal enough to pay Mr. Draper $1,000 a year for his good work for the State, besides paying large sums for publishing, while none of the property realized belongs to the State. Besides this, Mr. Draper is a good man, very quiet, so much so that a mouse gnawing at one of the old volumes in the Library would not be disturbed by his voice or foot fall—and a man deservedly held in high esteem by all who know him.

But all this does not constitute Mr. Draper the man for the office for which he is nominated. On the contrary, the quiet, book-worm life especially unfits one for such an office, for it begets a love of quiet, a nervous dislike to being interrupted, an indifference to matters in the world outside, which are especially inappropriate for a Superintendent of the interests of 3,000 or 4,000 schools, scattered over an immense region.—While, then, we hold Mr. Draper to be all that his political friends claim for him in his present position—and we speak from personal knowledge, while not one in a dozen of the conductors of the Democratic press know him at all,—we insist that not only is there no evidence of any qualification on his part for the office of Superintendent, except honesty and industry, but that he is the very poorest sort of a man to subject to the harassing duties of that important office. They would kill him in six months, and we should have lost a valuable man from the Historical Society, and gained nothing for our schools.

Suffrage for Colored Men.

No portion of the Republican Platform receives a more cordial assent from us than the one which follows:

Resolved, That we are utterly hostile to the proscription of any man on account of his religion, religion, or color, and that we are opposed to all secret or public organizations which favor such proscription.

To every word of it, we give our ready support, for every word is right. We do not believe that any man should be deprived of his political rights because of having been born abroad—because of his peculiar religious sentiments—or because of the color of his skin. We do not believe that, when we confer political rights upon the alien-born, we are therefore compelled to embrace the most degraded foreigner we meet; but we do think that we are giving to the sober and intelligent alien that which he has a right to, while we acknowledge at least the manhood of the other, if we do not encourage him to better conduct. We do not believe that when we, as Protestants, acknowledge the political right of Catholics, we admit the infallibility of the Pope. And we do not believe that when we insist that the negro should have the right of suffrage, we are therefore logically bound to a social intimacy with the worst or best of that unfortunate race. Amalgamation and the right of suffrage are not synonymous, by any means. The former is practised largely in Virginia, the very hot bed of Democracy, yet the negroes are not allowed to vote. Conversely, we suppose that in Wisconsin, we may allow them to vote, and yet not amalgamate.

We are glad that that word "color" is in the Republican Platform, and would be glad to see every Republican vote for conferring the right of suffrage upon colored men, confident that it will do the latter good, and the State no harm.

Remarkable Ignorance.—The fact stated by the Madison *Journal* that the passage of the law of last session, changing the fiscal year, so as to close it on the 1st of October, has been overlooked in the Departments of State, is remarkable, considering that it was a matter devised for the convenience of the Departments in making up their reports—and, we believe, has been published and certified to as properly compared in the Secretary's office.

A New Slavery Project.—The New Orleans Delta proposes that the slave trade shall be revived forthwith, but it is entirely opposed to taking the long voyage to Africa for negroes. It says there is a large useless population of blacks in the island of Hayti, and that they must be conquered and used to supply the demand of the Southern market.

A Fitting Finale.—The Elmira Advertiser intimates that the treasurer of the late "Horse Race" in that town ran away with the funds, and those who had been awarded premiums on their fast horses, were obliged to be content with the "honors" of the Olympian contest.

A Benevolent Offer.—A man in New Orleans advertises to furnish, for $25, a complete assortment of the oils &c., necessary for making and flavoring every kind of liquors, champagne, wines, &c., and a package of the articles used to give artificial strength to liquors. For the sum named, he offers to give "sufficient instructions to enable the new beginner to compete with the oldest liquor dealers."

The business of adulterating liquor, or of *making* them, out of deadly poisons, is carried on unblushingly.

Sensible People.—A few days ago, there was an attempt at a money panic in Dubuque, originating in a run upon Mr. Morley, a private banker of that city. Some twenty or thirty of the heaviest capitalists of the city at once came out in a card, pledging their whole fortunes, to the amount of millions, to sustain the banker, and the alarm immediately subsided. Sensible people, our Dubuque neighbors.

☞ The ship Elizabeth Jane, which arrived in Quebec a few days ago from Plymouth, has on board ninety head of prize cattle, consisting of horses, horned cattle, sheep and pigs, of the most valuable description, mostly purchased at the Royal Agricultural Shows which were held this year at Salisbury and York, and which stock is destined for Canada and the States. The estimated value of the cattle is about £6,000.

The Boston Gun at Genoa.—The Opinione, at Turin, gives an account of the reception at Genoa, of the splendid piece of ordnance sent by the citizens of Boston to the people of Piedmont, for the walls of Alessandria. Gen. Durando, Commander of the Division of Genoa, and the civic authorities, proceeded in state to the gates of the port, where the gun was solemnly delivered up to them.

Cheap Fare.—The Buffalo *Express* praises as really a first class Hotel, the new "Bonney's" Hotel in that city, kept by Mr. Younglove, and which charges but $1,50 per day.

Where Shall They Go?

The Pro-Slavery ministers who seceded from the New School Presbyterian Church, have great trouble in locating themselves comfortably elsewhere. A proposition having been made that they should join the Old School, one, Dr. Boyd, thus protested:

The chief argument against our going to the Old School Church, is that that *Church is tainted with Abolitionism*. Dr. B. here produced a very ingenious and luminous argument to prove this assertion. He showed that the Old School Assembly in 1846 had fully endorsed the celebrated action or testimony of the Assembly of 1818, which declared Slavery to be "a sin," a gross violation of natural rights," &c., a declaration which he declared to be the very essence of the most offensive Abolitionism; the very thing which we have protested that the Assembly had no authority, either from the Bible or our Constitution, for making. And yet Dr. Robert J. Breckenridge, of Kentucky, and Dr. N. L. Rice, of Missouri, have explicitly said they endorse that action as right. This Abolition principle is in the very blood and bones of that Church. There in the Western Presbytery this taint is showing itself. The Cincinnati Old School paper is rabidly Abolition, and it is the avowed purpose of its patrons to make the Old School Theological Seminary, at Chicago, an Abolition institution. The Doctor fairly piled up the proofs of his proposition, to give point and power to this question. We have resisted the Abolition element in the New School Church; we have protested against it, have suffered from it, and finally, on account of it, have abandoned that Church. Now, why shall we rush in the Old School Church, which is just as bad, and in the very same way, so far as its principle goes?

Mr. J. L. V. Thomas.—The Delaware *Messenger* has the following in relation to Mr. Thomas, who is presented by the Republicans of old Rock for Secretary of State:

Mr. Thomas lived 7 years in Newark a farmer, and always held office. In 1857 he held a seat in the Assembly, as a Democrat, and did the State signal service in preventing the passage of Barstow's swamp land steal. Being a Democrat, he was called on to go for it as a party measure. Very fatally to the party, he voted against it, and went for the motion of Dr. Bartlett, of this county, to indefinitely postpone the bill. Mr. Thomas and Dr. Gibson voted against the party, and it was killed by two votes. Mr. Thomas was really the man who defeated that three million steal. This makes *Barstow* hate him above all men, and fully explains the scurrilous abuse in the Standard.

Mr. Thomas, also, the same session, voted for the resolution against the passage of the Kansas and Nebraska bill. The party called a caucus, and tried to whip in the refractory members, but failed. So he lost caste by firmness.

Mean.—The Oshkosh *Courier* does not do the fair thing towards our neighbor of the *American*—it will not admit that paper to the Democratic fold. The *Courier* says:

The *American*, it is true, after Fremont's defeat, professed to have a change of heart, and proposed at one time to enter the democratic party, but its proposition was received with a shout of derision by the democratic press of the State. No democrat in good standing ever considered it an organ of the party. It has always been at war with the interests of the democracy of the State, and has never supported a democratic ticket.

The Rock Island Bridge Case.—The important case of the steamer *Effie Afton* against the Rock Island Bridge is progressing in Chicago, in the U. S. Court, Judges McLean and Drummond presiding. The evidence is very voluminous. The Pittsburgh *Journal* says:

The large steamboat interest of Pittsburgh, and the numerous underwriters, all feel that they have a stake in the issue of this trial, and we freely confess that we share the solicitude in the subject. It is computed that *fifty to sixty cases* of claims for damages are prepared and awaiting the result of the *Effie Afton* claim, to be precipitated on the Bridge Company, so soon as an award in favor of the owners shall clear the way.

From the Beloit Journal.

Work to be Done.

Within the whole circle of our acquaintance, we do not know of a single man in this State, who voted the republican ticket last fall, who will not do it this fall, but still there is a vast amount of work to be done, in order to poll as large a vote, and secure as large a majority as we did then. Last fall, large and enthusiastic meeting were holden in different parts of the State, and special pains were taken to have towns and school districts canvassed and supplied with documents. The effect of this work was to call attention to the monstrous outrages which the bogus democracy were and still are forcing upon the country, and to wake up the people to a just estimate and proper defence of their rights. This kind of work should be done again with boldness, earnestness and fidelity. Every County in the State should be canvassed, meetings held, and the people worked up to the importance of the issues presented and the fearful results contingent upon our defeat.

The enemy is desperate. They have commenced the campaign with bitter assaults upon the characters of the candidates, and in their desperation doubtless intend to slander and abuse not only the candidates, but every body else, who dares to show up the rottenness of their cause and expose the polluting processes by which they seek to poison the people and dupe them into their support. We anticipate a severer fight than we had last fall. If the desperadoes do not carry the State this fall, they know full well that they will not be able to do it for the next ten years, and therefore what money, bribery, fraud and falsehood will accomplish for them they will do without scruple to succeed. On the other hand, Republicans have stronger inducements to be faithful this year than they have ever had before.

Wisconsin has taken a high, noble stand upon all the issues which slavery has presented and stood strong and gloriously for freedom. In this position she stands high in the esteem of Republicans in all the northern States, and they look not only to her history with pride, but to her future with hope. The interests of Republicanism then, all over the land, are involved in the results of our election, and no man should falter for a moment, either on account of the magnitude of the issues presented or the amount of work to be done, lukily to meet them. Let the next sixty days then be consecrated to work for the cause of freedom, in the spirit of devotion and fidelity which the importance of the cause demands, and all will be well.

"The Wisconsin Game."—A New Jersey paper in speaking of election frauds, calls it the "Wisconsin game." Thus we see that the iniquity of the "forty" disgraces the whole State.—We have cast them out as unworthy at one State election—let us do it again and redeem the name of our State from becoming a by-word abroad.—*Madison Patriot.*

Correspondence of the Sentinel.

Kansas—Misrepresentations of it Corrected.

Ripon, Sept. 11, 1857.

Ed. Sentinel—*Dear Sir*:—I have several times noticed an article which was first published in the *Wisconsin Chief*, and seems since to have been going the rounds through the democratic press of this State, purporting to be a sort of "confession," by one Dr. Whitney, of Ft. Atkinson, after having returned from a trip to Kansas. And having myself returned only a few weeks since, after nearly a year's residence in that Territory, I beg permission to notice, through your paper, a few of the Dr.'s misstatements which seem to have been made with the view of preventing emigration to Kansas.

The Dr. says: "It has some of the finest soil that ever lay out under the sun; but in all else has little to attract those who seek for a home." The first part of this statement is correct, and I cannot better reply to the last than by quoting the language of the Rev. John Pierpont, who said of Kansas,—"I have travelled through the greater part of Europe, and in nearly every one of the United States, and have never seen anything to compare with it in beauty or fertility.—I will not say God *could* not have made a more suitable dwelling place for his children, but I say with certainty, he *never has*."

The Dr. says: "Its advantages, as set forth by newspaper correspondents, are *non est*." He makes this statement for publication, thus placing himself on a level with "newspaper correspondents," and by contradicting their statements as a class, he certainly lost a good opportunity of displaying his modesty, if indeed he possesses any share of that old fashioned virtue. "Its cities are many of them paper built." This is true, but it is also true that Kansas is as little cursed with this kind of speculation as either Minnesota or Nebraska; and in no Territory, if we except California, have real *bona fide*, cities been built more rapidly than in Kansas, and this in spite of the political difficulties which have been a continual check upon the enterprise of her citizens.

The Dr. next says: "Its coal beds are *humbugs*, the best veins being only one foot in thickness and the quality of coal always poor, often worthless." Here he displays the grossest *ignorance* of his subject, or is guilty of a deliberate falsehood.

If space permitted, I could mention at least half a dozen mines now opened and being worked, varying in thickness from two to three and one-half feet. I will only call his attention to one at Carbondale, which is two feet and ten inches thick—one on Washington Creek two feet and eight inches—and one at Moneka, which is fully three and a half feet. The coal is bituminous, and is considered by those who use it, and by scientific men who have tested it, inferior to none of the same kind that is found in the old States.

He proceeds to say, "It is indeed a poorly watered country." Here again, if the Dr. made any examination, he must have worn his leather goggles, for it is conceded by all who are familiar with the west, that Kansas has a greater supply of available stock water than Illinois, Iowa, Nebraska, or Southern Wisconsin; and wells of excellent water can always be obtained by digging a moderate depth, usually without entering the rock; therefore the expense will not average more than two-thirds as much as in the prairie districts of this State. The Dr. has greatly exaggerated the scarcity of timber. Aside from pine, to which at present she is not easily accessible, Kansas has a greater amount of timber suitable for building and fencing than either Iowa or Illinois. He place the price of cottonwood and walnut lumber at $60 and $70 per thousand feet. This is more than double the actual price, which will not average as high as $30 and $35.

And these high prices are not owing so much to a scarcity of timber as of mills, the price of sawing ranging from $14 to 20 per thousand. He states that pine is worth from $50 to $100. When I left the Territory three weeks since, Johnson and Co. of Quindaro, were selling at from $40 to $60, that being the common price at points on the Missouri river. He is "confident that Kansas can never become a fruit country," but does not give his reason for such a belief. Her soil is, by his own admission, unsurpassed; she is in the same latitude with the best fruit growing states in the Union, so that her climate cannot be an objection. Wild fruit is abundant, and such tame trees as I have seen, of sufficient size, though they were planted by the Indians, and left without cultivation, were loaded with fruit. So that, though there has not been opportunity for a fair experiment, this *opinion* of the Drs. would seem as *absurd* as some of his *facts* are *untrue*.

After reading this "confession" I am surprised that he should find fault with the morality of any community, and would say for his especial benefit, that so total a disregard for truth as he has therein shown, would not be tolerated by even the worst society of Kansas. I would further inform the worthy Dr. that the 32 groggeries of Leavenworth, (with which he seems to have had a more intimate acquaintance than he had with the coal veins) are considered by the Free State men as only a small portion of the evil created by the Border Ruffians; and they bid fair soon to be numbered among the things which were, unless protected by *Federal authority*, for the accommodation of *Bogus officials*.—Such a state of affairs seems not impossible, when we remember that his Excellency Gov. Walker "found it good" to make use of his freedom of the city to patronize one of the most extensive groggeries, to the tune of $200, at the expense of the good people of Leavenworth, on the night of his arrival in the Territory. After reviewing these manifold disadvantages, the Dr. arrives at the sage conclusion "that Kansas is no place for him to live." And if he intends to make his pill-bags support him, I certainly admire his judgment. Kansas is a good country for physicians, if they understand how to speculate in real estate, but I think one depending upon his practice for support would be obliged to eat his own medicine, or starve to death in a year.

I have been somewhat prolix in this article, because I find that a certain class of journals are ever ready to seize upon such distortions of facts as Dr. Whitney's "confession," with the hope of manufacturing a little temporary political capital out of them. In this article I have stated only simple facts, as they appear to a disinterested observer, with the single desire that those emigrating westward might know the truth upon these points, for I presume that some of them will go to Kansas notwithstanding the Dr.'s caricature of the country; and I would advise all who may be seeking a western home to visit that Territory before locating elsewhere. Indeed, as this question of Kansan emigration seems to be an open one, I would like to give a few hints with regard to outfit, &c., but fearing I have already wearied your readers, I will, for the present, close by subscribing myself, your and their obedient servant,

O. E. LAGRANGE.

Foreign Trade of the United States.

The Secretary of the Treasury, pursuant to a respectful request from New York, has caused to be made up and published in the official paper at the seat of Government, the Washington *Union*, the great balance sheet of the Foreign Trade of the United States for the fiscal year ending 30th June last.

Imports—Specie	$14,461,792
Free goods	54,987,567
Dutiable	294,160,585
Total imports	$360,590,141
Foreign exports—Specie	$ 9,088,570
Free goods	4,818,864
Dutiable	10,591,547
Total	$23,904,079
Domestic exports—Specie	$ 60,078,532
Merchandize	276,956,718
Total	$337,035,065
Total exports—Foreign and Domestic	$360,939,144
Resulting balance in favor of United States	$ 8,059,003

The comparative figures with the year 1856, show the following results:

Incidents of the Indian War.—Blowing up the Magazine of Delhi.

An interesting narrative, officially communicated to Government by Lieut. Forrest, gives an accurate detail at last with respect to the blowing up of the magazine at Delhi on the outbreak of the mutiny. Lieut. Forrest, shared with Lieut. Willoughby the honor of this brave action. On the morning of the rebellion these two officers and Sir C. Metcalfe were in the arsenal when they heard of the treachery of the native Sepoys, and they took instant measures to check their advances upon the arsenal. Sir C. Metcalf, who had gone out to see the extent of the movement, did not return. Lieut. Forrest closed and blocked up the gates, placing two six pounder guns doubly loaded with grape under Sub Conductor Crow and Sergeant Stewart, so as to command the entrance. Two more six-pounders were placed in a similar position in front of the inside of the magazine gate, protected by a row of *chevaux de frise*. For further defence, two six-pounders were trained to command either the gate or the small bastion in its vicinity, or other guns being so arranged as to increase the strength of the position generally. These preparations had hardly been concluded, when a body of mutineers appeared, and called on the defenders to open the gates. On their refusal, scaling ladders, given by the King of Delhi were brought up, and the rebels got on the walls and poured on to the arsenal. The guns now opened and took effect with immense precision on the ranks of the enemy. Four rounds were fired from each of the guns, Conductors Buckley and Scully distinguishing themselves in serving the pieces rapidly, the mutineers being by this time some hundreds in number, increasing in force and keeping up a quick discharge of musketry. A train had been laid by Lieut. Willoughby to the magazine and the decisive moment soon approached, Lieut Forrest being wounded in the hand and one of the conductors shot through the arm. The signal was given to fire the train, which was done coolly by conductor Scully. The effect was terrific; the magazine blew up with a tremendous crash, the wall being blown out flat to the ground. The explosion killed upwards of a thousand of the mutineers, and enabled Lieutenants Willoughby, Forrest and more than half the European defenders of the place to fly together, blackened and singed, to the Lahore gate, whence Lieut. Forrest escaped in safety to Meerut. Willoughby was less fortunate, and is now said to have been killed on his way to Umballa.

Battles of Futtehpore—Splendid Action of the English Troops.

[From the Bombay Times, July 30.]

During the last fortnight the career of rebellion has remained unchecked throughout India, except at Futtehpore, where the mutineers under Nana Sahib have been twice defeated by the British troops. On the morning of the 17th inst., General Havelock, who left Allahabad with about 2,000 Europeans, consisting of the 64th regiment, 78th Highlanders, Madras fusiliers, and a company of royal artillery, attacked and totally defeated the insurgents, captured eleven guns, and scattering their forces in utter confusion in the direction of Cawnpore. By two harassing marches he had joined Major Renaud's advanced columns three hours before daylight, and arrived about eight o'clock four miles from Futtehpore, where he encamped. The enemy advanced out of Futtehpore, and opened fire upon a reconnaissance under Col. Sydler. Gen. Havelock marched with eight guns in the center, under Capt. Maud, Royal Artillery, forming the whole of the infantry in quarter distance in support. Capt. Maud's fire electrified the enemy, who abandoned gun after gun, and were then driven by our skirmishers through garden enclosures and the streets of Futtehpore, in complete confusion.

The splendid victory was gained without a single casualty on the side of the British, not a man being touched by the fire of the enemy. The enemy's strength was said to have been two regiments of cavalry, three of infantry and eleven guns, which were all captured. After this battle Gen. Havelock continued his victorious progress towads Cawnpore, which he reoccupied, after having beaten the enemy three times and captured twenty-six guns. Nada Sahib, the rebel leader, has fled to Bahitoon, which is about eight or ten miles distant from Cawnpore, and we have no doubt that Gen. Havelock will follow the treacherous Mahrattas up to their place.

Fearful Rencounter with a Bear.

It appears that a party of gentlemen from Augusta, consisting of Messrs. Young, Andrews and McCormick, while hunting in the pine forests bordering the Chippewa River, on the 22d inst., encountered a very large black bear, and were attacked by it with a degree of ferocity seldom exhibited by the grizzly bear of the Rocky Mountains. They had started on their return homeward, and while ascending a swale, or deep ravine, toward sunset, discovered a bear standing upon the summit of a ridge some distance from them. One of the party, Mr. G. S. McCormick, discharged his piece at the animal, when it made towards them at a rapid pace. Arriving in their midst, it sprang upon Mr. McC., tearing him from his horse and wounding him in a dreadful manner.

The rest of the party immediately dismounted, but for some length of time were unable to render their comrade assistance, on account of the bear having him in such a position that to discharge their guns at the ferocious brute would have still more imperiled his life. Finally, Mr. Young clubbed his rifle and struck the bear upon the head, when it immediately let go its deathly grasp of Mr. McCormick and sprang upon Young with redoubled ferocity, tearing and wounding him in such a fearful manner, that fears are entertained for his recovery. The third party succeeded in despatching the ferocious creature, but not before receiving several severe bites and having two of his ribs broken. The parties succeeded in reaching a logger's shanty about midnight, and were brought home the next day in a disabled condition.

The bear weighed, when dressed, upwards of 1,000 pounds!—*Eau Claire City Telegraph.*

THE DAILY SENTINEL.

THE AQUARIA AT THE MUSEUM.—The proprietors of the American Museum have availed themselves of the growing mania for "Aquaria," and will on Monday next open for exhibition a magnificent collection of fishes, sea plants, and all sorts of marine monsters, and curiosities, gathered from ocean, river and lake. We had the pleasure or examining their collection yesterday. The Aquaria occupy a large room, on each side of which are arranged rows of glass water tanks, thirty-two in number, and ranging from one and a half to six feet in length. Within these tanks are displayed from eight hundred to a thousand different specimens of the vegetable and animal life of the water. The bottoms of the Aquaria are covered with an inch or two of clean coarse gravel, upon which are placed miniature piles of rocks, tastefully arranged, and growing upon these are various tinny-lived specimens of marine mosses, plants, &c. There is a large number of zoophytes, which grow upon the rocks, like little palm trees, with spreading branches, but upon the slightest alarm suddenly collapse, draw their branches together, and gather into the smallest possible space.

The vegetables keep the water supplied with oxygen, and many sorts of curiously shaped water snails, creeping among the rocks and plants, gather up the decaying vegetable matter and keep the water pure and wholesome for the fishes. Considerable skill is required to properly adjust the proportions of vegetable and animal life.—Each aquarium has its little assorted colony of fishes, sporting contentedly among the rocks and plants. There are star-fish, sea spiders, soldier crabs, porgies, sun fish, bass, shiners, pike, chub, suckers, newts, lizards, trout pike, pickerel, a host of fish with Latin names, and two or three specimens whose names are unknown, if they have names at all. The gamboling and tricks of these gaily colored things are exceedingly pleasant to look upon as well as instructive, and we are sure that the aquaria will prove a decided "hit." The effect of the rainbow hues of the fishes, sporting among their submarine groves and caves by gas light, we are assured is splendid. All the children, at least, will want to see the aquaria.—*N. Y. Eve. Post.*

BADLY MIXED.—A very singular occurrence, involving the identity of two newly-born specimens of "Young America," is related by the Easton (Pa.) Express, as having transpired recently in Lower Mr. Bethel township, in that county. A lady who was about to present her liege lord with a "pledge of affection," engaged the services of a worthy dame in the neighborhood to assist her through the period of confinement. The nurse was called and very promptly made her appearance, when it was discovered that she was herself quite as much in need of the services of a nurse as the lady of the house. The sequel is soon told: two fine boys were born, and in the hurry and confusion consequent upon this unexpected turn in events, they got so mixed up that it was impossible to determine with any certainty as to the maternity of the children. As might be supposed, a great deal of discussion ensued, and the mothers of the babes were greatly distressed, but the best that could be done under the circumstances was for the party present to assign the children to the mothers and await the developments of the future. If the growth of the children should discover any strong family resemblence the ladies can swop back and make the matter all right; but without such developments they must ever remain in doubt as to the genuineness of their "precious darling." It is a very distressing case, and the folks ought to have known better than to have got a pair of babies mixed up, but on such occasions things are liable to occur.

TEN YEARS'
ACQUAINTANCE WITH
Weed's Genuine Roofing.

SUCH FACTS as are hereby set forth have heretofore been presented to the public, where this roofing material has been used any considerable length of time, that the misrepresentations of the designing and unscrupulous have failed to injure its reputation or impair the confidence of a discriminating public.

It is very well known that a large number of the most elegant residences, commercial blocks and public edifices ever erected in this city are under the protection of this *fire and water-proof roofing*, and that it has given such universal satisfaction here as elsewhere, that the demand in this season is more than double what it was last year, notwithstanding the strenuous efforts made to introduce various other articles for a similar purpose.

SYRACUSE, June 19th 1857.

The undersigned has been acquainted with Weed's Galvanized Cement, for nearly ten years past, and has had it applied to a buildings in several instances. He is so well satisfied with its durability and general *fire and water proof qualities* that he has applied it to some new buildings which he has erected during the past winter and spring.

There is no doubt but the *cement* is in better repair here *than ever before*.

SYRACUSE, June 19th 1857.

This may certify that I had a building covered with Weed's Galvanic Cement some *four or five years* ago and also that the destruction by fire last fall the roof was perfectly tight.

I have no hesitation in recommending the cement to those who wish to procure good and lasting roofs.

N. B. When the building was burned, the *roof did not take fire at all* until the roof boards burned through.
ALEXANDER LOVE,
SYRACUSE, June 19, 1857.

The undersigned coupled a building covered with Weed's Galvanic Cement, which was burned in the great fire last fall. The roof had been on two years and at the time of the fire was apparently as good as when first put on. The fire was blown in perfect torrents of flame directly upon the roof and it did not take fire, and when the walls fell the roof was entire except where the roof boards were burned off. *Weed's Roofing did not take fire a more thorough trial by fire and nothing could have stood the test* better than this Roofing Material.
E. HAMMOND.
G. F. JOHNSON.
SYRACUSE, June 15, 1855.

Weed's Cement Roofing is more extensively used here and in all the large towns than it ever was before.

This roofing composition rests upon its own merits, and *where it has been used, needs no recommend.* There are hundreds who have had roofs on from *two to five years and not one has failed*, that was well done. *It will last twice as long as the best tin.*
N. P. GRAVES.
MILWAUKEE, July 27, 1857.

I have been a resident here twenty-two years, had the *first brick* and topped out the first chimney in the city, and now been a builder ever since; am acquainted with all kinds of Roofing, and in my opinion *Weed's Galvanized Cement* is superior to any other in use *in all respects.*
WILLIAM SIVYER.

I have been extensively engaged in building for nearly twenty years in this city of Milwaukee, and am acquainted with various kinds of Roofing material. I regard *Weed's Composition Roofing* as the best article for covering buildings now in use. I have had it upon a dwelling house which I have built this season for myself.
Oshkosh, August 1st, 1857. GEO. CHASE.
Architect and Builder.

To the proprietors of Weed's Patent Galvanic Roofing:
GENTLEMEN—We are some of the numerous property-holders of this city who have availed ourselves of the advantages which your Galvanic Composition Roofing Material affords, and we most cheerfully and unhesitatingly say, that our experience and observation this day, fully sustain and corroborate the proof you have heretofore presented to the public, through the Milwaukee press, of the *superior qualities of your roofing material:*

J. B. Crocker, Isaac Newell, Alanson Sweet, J. Weicott, S. Butson, O. Alexander, M. A. Krug, R. Heiser, Ernst Heiser, F. A. Hallman, builder, Tibbetts, Starkweather & Co., J. C. Berry, Wm. F. Young, John Rosebush, R. L. Reiss, Th. Wetstein, Yanock Bros., builders, W. H. Metcalf, G. Pfister & Co., Haven Powers, G. A. Starkweather, J. H. Wood, Chapin, Gregory & Armour, Hazard & Baker, Chas. A. Jung, J. Hilkens, Mary Gurtis, Alvin Starr, P. Lowe, W. P. Merrill, H. Rodde, builder, Ch. Preusser, F. Rodda & Co., Geo. F. Austin, H. A. Nichols, Martin & Ruger, builders, H. H. Camp.

While the above have paid Five Hundred and Seventy Three Dollars for repairing leaky and defective roofs. The Composition used for such improvements is known as Weed's Galvanic Cement for Roofing, I answered inquiries who have received from the experience and of the superiority of this article for roofing purposes, over any other article now in use, that I have engaged tobacco applied to the building which I am having erected on the corner of East Water and Michigan sts.
ALEXANDER MITCHELL.

From our knowledge of the composition for covering buildings, called Weed's "Weed's Galvanic Cement" for Roofing, which has been very extensively used in this city the past year, with perfect satisfaction to those who have adopted it, we most cheerfully recommend it as being in every way equal to any other article of the kind now in use and worthy of the fullest confidence of the public.

Jno. French,
Edwin Palmer,
Master Builders.

The Newhall House and the Excelsior Block, two of the most elegant, costly and imposing structures ever erected in the West, are covered with this roofing material, and two more *perfectly tight* and *water-proof roofs* cannot be found in the city—*they are also recommended by builders and architects* generally. We refer to this for obvious reasons.

Numerous patents and county rights have been purchased by architects, builders and practical men, who are applying this roofing material in various parts of the State, from whom we are obtaining large orders for stock.

Instructions for applying, with stock and printed directions, furnished at reasonable rates, to any part of the State, which has not been disposed of.

Any amount of additional proof in relation to the superiority of this roofing to that of every and *every other article* now in use, can be seen by calling at our office, 289 E. Water St. J. Y. CHENEY & CO.

PITTSBURG, FT. WAYNE & CHICAGO
RAILROAD!
THIS New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Toledo, Sandusky, Monroeville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between
CHICAGO AND THE EAST.
FARE AS LOW AS ANY OTHER ROUTE.
Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.
Trains leave Depot on VAN BUREN ST., daily as follows:
7.15 A. M. 8:30 P. M.
With but one change of cars to Pittsburgh.
CHECKING BAGGAGE THROUGH
To Pittsburgh, Philadelphia, Baltimore and New York Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.
Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.
Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other reliable competitor.
